

BOY SCOUTS OF AMERICA®
QUIVIRA COUNCIL

October 20, 2021

Dear Charter Partner,

To bring to light the insurance coverage for Charter Partners of the Quivira Council Boy Scouts of America, the bullet points below outline the coverage and protection established in our partnership with Packs, Troops, Crews and Ships. The attached document from our National BSA is the official Primary Policy Declaration

- The Boy Scouts of America has provided millions of dollars liability insurance coverage to its Chartered Partners in Quivira Council since 1976;
- Through this insurance, the Boy Scouts of America has defended itself, its local councils such as Quivira Council, and its Chartered Partners against sexual abuse and other liability claims since 1976 including through protections provided by the current bankruptcy proceedings and national settlement trust;
- Chartered Partners are “insureds” under the Boy Scouts of America’s liability policies which provide \$7,500,000 in liability coverage per occurrence to an aggregate of \$23,000,000 annually to protect, defend, and indemnify the Boy Scouts of America, the local councils such as Quivira Council, and our Chartered Partners against liability claim arising out of any official Scouting activities;
- If an organization foregoes status as a Chartered Partner, the Boy Scouts of America, Quivira Council, will provide a certificate of insurance to name the organization as an “additional insured” under this liability policy; and
- Boy Scouts of America, Quivira Council, cherishes its relationships with its Chartered Partners and seeks to maintain that relationship by providing millions of dollars in liability insurance plus our effective youth protection program – which has been the standard since 1984 to demonstrably diminish the risk of sexual abuse incidents and complaints.

Thank you again for your continued partnership and support of the Scouting movement within your church and school.

Yours in Scouting,

Brian J. Nastase
Scout Executive
